

Heather Hudgeon

UX/UI Designer & Front-End Developer

hhudgeon@gmail.com East Troy, WI 415.672.4768

UX-minded Web Developer and Designer with over 20 years of experience creating intuitive, visually thoughtful digital experiences.

Combines front-end development expertise in HTML, CSS, and JavaScript with a strong understanding of back-end workflows, CMS platforms, and production environments. Experienced with Git, command line tools, and database systems.

Passionate about translating ideas into refined, user-centered solutions using Adobe Creative Cloud and Figma. Known for strong problem-solving, adaptability, and a thoughtful, user-focused approach to every project.

Relevant Experience:

Trader Joes
San Francisco, CA & Brookfield WI
2016 - present
Crew Member

Delivered high-quality customer service in a fast-paced environment while fostering a collaborative team culture. Recognized with a company bonus for outstanding customer service and reliability. Contributed to workflow improvements and daily operations to support team efficiency.

Designed a training worksheet to support crew members with diverse learning styles and special needs, demonstrating initiative and a strong commitment to accessibility and inclusion.

The Royale
San Francisco, CA
2013–2018
Freelance Graphic Design/Website Management

Designed marketing materials including posters, flyers, online ads, and promotional graphics.

Collaborated with stakeholders to update website content, maintain event calendars, and refresh branding for special events. Supported ongoing visual and digital presence through design updates and content management.

Heather Hudgeon

hhudgeon@gmail.com East Troy, WI 415.672.4768

Golden Gate Restaurant Association (GGRA)/EatDrinkSF
San Francisco, CA
2005-2014

Technical Lead & Web Developer

Led web development and design for ggra.org and eatdrink-sf.com, serving as the organization's primary technical resource across front-end, back-end, and infrastructure needs.

Partnered with a developer to build a Django-based backend and managed databases supporting both platforms. Oversaw technical operations including hardware, software, and staff support.

Designed and produced digital and print marketing materials, supported brand development for EatDrinkSF, and managed social media content. Provided event photography and creative support to enhance outreach and engagement.

Continuous Learning

- Committed to ongoing professional growth through independent study and online learning platforms including: Treehouse, SoloLearn, Mimo, and Udemy.
- Regularly exploring front-end development, UX principles, accessibility, and modern design workflows to stay current with industry practices.
